PROFILE

For years now, Wagenborg Nedlift has been working to build lasting relationships with its customers and partners both at home and abroad. Time after time, this has enabled Wagenborg Nedlift to offer unique, highly-skilled and safe solutions in the field of heavy transport, lifting, engineering and supplementary services. A strong focus on safe work practices, well-thought-out engineering, efficient project management and the use of modern and sustainable materials forms the pillars upon which the company is built. Wagenborg Nedlift is a division of Royal Wagenborg.

Royal Wagenborg offers a wide range of maritime solutions in the field of shipping, offshore services, towage, maritime management, warehousing, transshipment and heavy transport and lifting. The family-owned company, which is over a hundred years old now, has more than 3,000 employees.

**Your reliable partner for
horizontal, vertical and
heavy transport!**

MISSION & STRATEGY

By offering safe and efficient solutions in lifting, heavy transport and supplementary services, Wagenborg Nedlift has made a name for itself as the highest-quality, most customer-focused, proactive and skilled service provider in these fields. Wagenborg Nedlift's strategy is centred on six core principles:

1. Zero Accidents

Zero Accidents: this is Wagenborg Nedlift's safety target. We focus on:

- Reporting, investigating, evaluating and communicating high-risk situations, incidents and close calls
- Promoting safety awareness and safe behaviour at every level of the organisation
- Systematic organisation of safety and quality

2. TEAM

At Wagenborg Nedlift the top priority is to develop safe and smart solutions for our customers. That's why Wagenborg Nedlift employees are knowledgeable, dedicated, customer-focused and flexible, as well as having high safety awareness. To keep our team not just proficient and dedicated but also healthy, Wagenborg Nedlift pays close attention to:

- Education and training, on both the operational and management level
- Constructive dialogue and regular contact with all staff
- Sustainable HR policies
- Opportunities for growth and advancement

3. CUSTOMER FOCUS

Wagenborg Nedlift believes in maintaining long-lasting relationships with its customers. Every company is unique, and heavy transport and lifting is custom work. Every situation and every challenge is different, requiring a unique solution. The Wagenborg Nedlift team forms a partnership with the customer, always looking beyond the task at hand to take external factors and interests into account. In this way Wagenborg Nedlift is able to come up with solutions that are unique, safe and efficient – solutions that benefit not just our customers but our customers' customers as well. This is exactly what we mean when we talk about customer focus.

4. SUSTAINABILITY & INNOVATION

Sustainability is an important strategic factor for Wagenborg Nedlift. This entails making the maximum contribution to a liveable world for society, stakeholders and future generations. To achieve this, Wagenborg Nedlift is dedicated to the following, and more:

- Fuel and energy savings
- Investments in sustainable materials
- Sustainable innovation

Wagenborg Nedlift received a score of 49 in the EcoVadis sustainability assessment. This puts Wagenborg Nedlift in the best 40% of all the companies assessed, amongst the top in its sector.

5. PROCESS OPTIMALISATION

It's all about customer convenience and optimisation. In order to achieve safe and unique solutions for customers it is necessary for internal processes to be arranged in an efficient and effective way. Wagenborg Nedlift makes maximum use of innovative and digital technologies for this purpose. In the area of process optimisation our focus includes:

- Optimisation of the contracting process, resulting in clearly specified quotes and easy-to-understand billing
- Digitisation of the work order process, from initial order to final approval, providing a fast and clear overview of the work to be carried out
- Digitisation of HSEQ processes and documents, so that registrations and reports can be processed more efficiently and more time and attention can be paid to important HSEQ aspects.
- Online customer satisfaction survey, which enables us to respond quickly to customer feedback

6. Continuity

A good financial position is an important prerequisite for stable and future-proof business practices. Wagenborg Nedlift endeavours to generate a healthy return on its investments so that it can remain a dependable partner for its customers, now and in the future. In our business practices, we focus on good project and process management and on making the right commercial choices. This is how Wagenborg Nedlift is working towards a stable future!

OUR SERVICES

ENGINEERING

Wagenborg Engineering is the independent engineering firm par excellence when it comes to heavy transport and lifting, fully capable of meeting the ever growing demand for specialised knowledge and proven expertise in areas such as:

- Lifting and transport engineering
- Rigging design
- Alternative transshipment techniques
- Load securing
- Development of customer-specific lifting and transport structures

SOLUTIONS

For complex transport issues, the experienced lifting and transport experts at Wagenborg Nedliff develop tailor-made and unique integrated logistics solutions. They combine road transport with inland and maritime shipping, working together with the various affiliates in the Royal Wagenborg family whenever possible.

In addition, Wagenborg Nedliff's assembly specialists offer customised solutions for machine relocation, installation of process systems and related tasks.

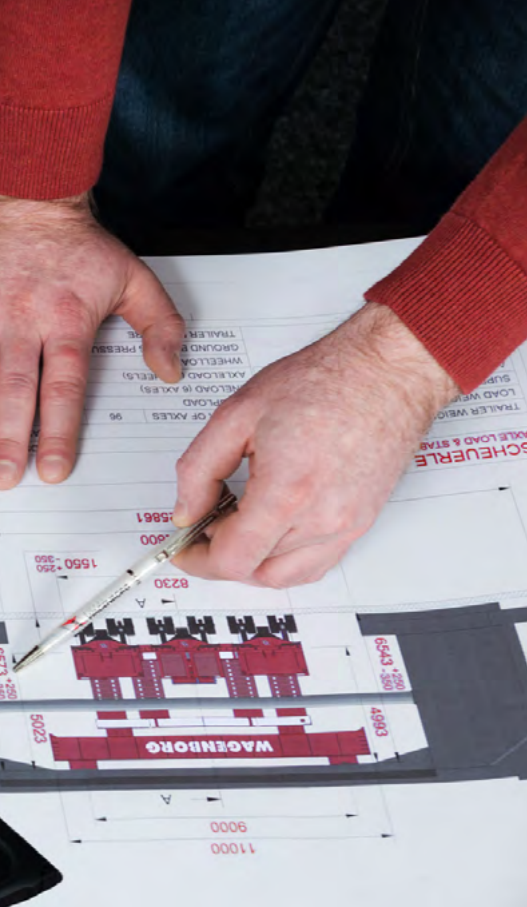

RENTAL

In order to ensure safe, specialised and efficient solutions, Wagenborg Nedliff has a modern equipment fleet at its disposal – flexible, versatile and manned by specialists. It includes approved and certified lifting equipment, along with everything else that's needed to ensure success for every lifting or transport project.

Wagenborg Nedliff's rental fleet consists of:

- Mini-cranes, mobile cranes, knuckle boom cranes, mobile tower cranes and crawler cranes
- Modular trailers and SPMTs (Self-Propelled Modular Transporters)
- Lifting systems, skidding and jacking systems and weighing systems
- Modular Support System, steel plates and other equipment

CERTIFICATIONS

Wagenborg Nedlift possesses the following certifications:

- ISO 9001 ■
- ISO 14001 ■
- ISO 45001 ■
- VCA – Petrochemicals ■
- VVT-Certification ■
- EcoVadis ■
