

Safety when working in small spaces

Wagengborg Nedlift's compact cranes make lifting work in limited space simple and efficient.

Unique features:

- Very compact dimensions
- Electrically operated
- Wide range of configuration options

Types:

- Caterpillar track-driven Palfinger
- PK 27002-SH
- Hoeflon C10
- Hoeflon C30e

COMPACT CRANES

Powerful lifting work on a tight location

Wagengborg Nedlift compact cranes are perfectly suited for lifting operations in difficult to reach areas, such as placing process equipment inside a building. Including situations where there is limited lifting height and obstacles, the compact cranes provide a solution, as they are highly manoeuvrable and can manoeuvre accurately.

Remote-controlled

The remote control gives the operator very controlled and exact control of the compact crane. This enables the operator to keep an overview and carry out his work safely.

Sustainable use

Our compact cranes are fully electrical and therefore highly suitable for work inside buildings. Electric operation also means low-noise operation. Quiet and clean, these compact cranes!

Technical specifications Palfinger PK 27002-SH

- maximum lifting capacity: 8600 kg
- maximum lifting height: 25,5 metres
- 360° swivelling range
- electrically powered
- variable outrigger

Technical specifications Hoeflon C10

- maximum lifting capacity: 4000 kg
- maximum lifting height: 21 meter
- 360° swivelling range
- electrically powered
- variable outrigger

Technical specifications Hoeflon C30e

- maximum lifting capacity: 9000 kg
- maximum lifting height: 22 meter
- 360° swivelling range
- electrically powered
- variable outrigger

Wagenborg Nedlift

For many years, Wagenborg Nedlift has been building lasting relationships with its customers and partners at home and abroad. This allows the Wagenborg Nedlift team to offer unique, professional and safe solutions for heavy transport, lifting, engineering and additional services.

Wagenborg Nedlift focuses on:

- Safety at work
- Skilled and sustainably deployable team
- Enduring customer relationships
- Sustainability and innovation
- Future-proof business operations

Wagenborg Nedlift specialises in:

- Lifting and transport engineering (Wagenborg Engineering)
- Logistic solutions for complex transport issues
- Professional machine relocations
- Safe and efficient rental solutions with a modern fleet of equipment
